

# Annual Review of Employment Law 2023

## FAQ – updated 26/06/23

### **Q. What does Hybrid mean?**

A hybrid event involves a mixture of in-person and remote attendees. Remote attendees join via a virtual event platform, such as Microsoft Teams or Zoom.

For this event we have 2 ticket options – 1. In-person ticket for delegates who wish to attend at the physical venue, and 2. Online ticket for those who will attend online. Our hybrid event offers the opportunity to attend in person OR online.

### **Q: How much and how can I pay?**

A: The registration costs are listed on the event registration page and displayed before booking. We accept payment by card online (via Stripe) or by Invoice.

### **Q: Can I switch between attending in person to attending online?**

A: Yes, you can switch between attending in person to attending online. However, please inform us of any changes, in writing. Please refer to our [T&Cs](#) for more information.

### **Q: What are the technical requirements for attending the event online?**

A: To attend the event online, you will need a stable internet connection, a computer or mobile device, and access to the virtual platform. Specific technical requirements and instructions for accessing the platform will be provided closer to the event date.

### **Q. How do I access the online event?**

All delegates will be emailed the joining instructions 1 week before the event, with reminder emails sent again the day before and 1 hour before the event goes live. Step by step instructions will be sent out prior to the event in a digital guide.

### **Q: Will I have the same experience attending online as those attending in person?**

A: Online delegates can expect the same high-quality educational content as in-person. Those attending virtually will have access to live streaming of keynote speeches, presentations, and parallel sessions. Online participants joining live on the day will have the opportunity to engage with the presenters by submitting questions during the sessions. Recordings of the presentations will be accessible post-event.

### **Q: Will there be networking opportunities for online attendees?**

A: Virtual networking opportunities for online attendees are currently being explored and details of this will follow.

### **Q: Will the event sessions be recorded and available for viewing after the event?**

A: Yes, we will record all the event sessions and make them available for viewing after the event. This way, you can revisit any sessions you may have missed or access content that you found particularly

valuable. The recordings are available to everyone who has purchased a ticket, whether online or in-person.

**Q: Will I receive event materials and resources if I'm attending online?**

A: Yes, we will provide event materials and resources digitally to all attendees, including those attending online. These may include speaker presentations, handouts, and any supplementary materials relevant to the sessions.
